Re: Industrial Wastes
William Dick Lagoons
West Caln Township, Chester County

Dear Mr. Sayer:

We represent William Dick, who received a certified letter dated May 29, 1970 but which was delivered on Friday, June 5, requesting an answer by June 8. We are naturally interested in the conclusion that industrial waste was being discharged into underground waters. Our firm represented Mr. Dick on a previous occasion when it was concluded by the State Authority that no such discharge occurred. Would you please be good enough to let me have a copy of the findings.

The discharge of all materials into the lagoon has stopped and to some extent, as a result of the publicity, the lagoons have been damaged. A pack of motorcyclists ran over the dam breast and effectively did the job.

I am sending a copy of this letter to Mr. Cahill so that he may confer with me and we may arrange to take such steps as are necessary to comply with the directive.

Very truly yours,

Paul S. [Signature] 10027
